EDITORIAL

As you will have noticed, this month we are trying something totally new. We have reduced the newsletter from the original A4 size to the more compact A5. The main reason for this change is to reduce the photocopy time when creating the newsletter. Our photocopier unfortunately doesn't like to work very hard and tends to do silly things such as paper jamming, overheating and poor quality copying. What would normally be a three hour photocopy session can easily become a five hour session, very tiring and frustrating indeed.

We expect some people to disagree with the smaller size. Certainly, a larger size looks more impressive but as they say, "Never judge a book by its cover". We will still have the same number of pages. The benefits outweigh the drawbacks. Benefits being, a more professional print quality, a stronger more stable binding, quicker and easier to produce, uses less paper, double overhead cam, independent suspension, cruise control...ok, ok, we're getting carried away, but you know what we mean. If you still don't agree, think of all the trees we're saving with the reduced paper use. Maybe we could also switch to recycled paper! The first Gospyan Newsletter that is environmentally friendly! Wow!

We received a lot of positive feedback on the presentation of the last newsletter, although there were a few typo and layout errors (hey, we're Greek!). The first person to write in listing all the errors in the last newsletter will win a trip for two to Gilligan's Island flying Compass Airlines, super economy class!

We know you're dying to read the rest of the newsletter so in ending, we would like to thank the ever popular Jenny Sclavos for her informative article "Greekness of Macedonia", Manuel Stathis again for the excellent comic artwork (except that we can't spell 'Courabietha'), the committee members who all submitted their columns in on time and all the readers who voiced their opinions and ideas for the newsletter. Remember, this is YOUR newsletter and should reflect what YOU want to read.

We have a saying here on the 67th floor of the Gospya Editorial Building, "Things can only get better", so till next month, Yiasas!

PRESIDENT'S REPORT

Hi Everybody,

Your committee has been busy planning the year's activities and we have a stack in store for you.

Before I start on these however, I must report that the GOSPYA Car Rally II 1992 held on Sunday, April the 12th was a great success. Read all about it in the "Peter Brock's" report.

Our next function is a Movie and Pizza night to be held at GOSP hall on Friday, May 15th commencing at 8.00pm. A fellowship meeting (these are held every Friday fortnight commencing at 7.30pm) will be held beforehand and I urge all movie-goers to come to Fellowship. As well as watching two great movies on a large screen with stereo sound, you will receive two slices of pizza, garlic bread, popcorn and all the softdrink you can drink for only J. This is top value and you will be able to buy more pizza if you are still hungry. Bring your own pillow and blanket, banana lounge, bean bag, sofa, milk crate, oil drum or whatever you feel comfortable lounging in or on as you watch the movies and are served your food and drink by our waiters and waitresses.

On Friday, June 26th we will be holding another Trivia night. This will be after exams so to the students among us, I suggest you save some mental energy for this night.

At present the search is on for Miss GOSPYA '92. As well as proudly representing her parish in the Miss Greek Community Quest. All interested ladies, contact Sophia (H)343 5176 or (W)877 8691.

Arrangements for the Tenth Anniversary Debutante Ball to be held on Saturday, October 17th are proceeding smoothly and we still have room for more Debs and Deb partners. Those interested in participating in this memorable night should contact:

Vicky Marentes 343 2452
Kaliopé Tarros 841 2618
Sophia Hadgis 343 5176

Anna Conomos 349 7350
Patra Ganis 398 5398

In July, GOSPYA will be conducting a bush walking excursion to beautiful Mt. Warning which is only two hours drive south of Brisbane. This bush walk will be held on Sunday July 5th and accommodation at the foot of Mt. Warning has been organised for the Saturday night - this includes a great bonfire. Alternatively, you may travel down from Brisbane on the Sunday and meet up with those who stayed over night. Read the advertisement in this issue for more details.

The various GOSPYA sporting teams are achieving mixed success so come along to their matches and support them as they strive for their respective premierships.

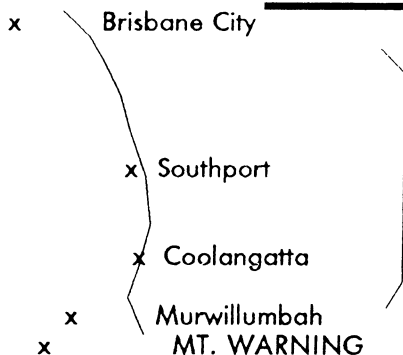

Several Combined Youth Group functions are being organised so watch for them in the next issue of this newsletter.

I greatly value your input to your Youth Group so please, if you have any ideas, suggestions, or improvements, do not hesitate to contact the committee members or myself.

GOSPYA is giving you the opportunity to trek this wonder that captured the heart of Captain James Cook on his voyage of the east coast.

We have arranged a Lieutenant Scout Master (Elleni Souris) to guide you on your Journey. A complete trail is marked out, and a lookout platform awaits you at the top. On a clear winters day you can even see the Glass House Mountains. Journey up takes around 1.45 hours and storm down in only 1.5 hours.

Fellowship Report

Committee: Stavros Kazoullis, Helen Mihalitsis, Leah Kypriadakis

Welcome yet again to another report on the month of Fellowship. As you all should know, Fellowship is a gathering of youth which occurs on every second Friday throughout the year. These gatherings are held at GOSP Hall, and commence at about 7.30pm. The formal discussions last about a half an hour, and are followed by many different activities. The most popular to date has been Trivia Nights, but a variety of other activities also take place.

The last month has been a little quiet on the Fellowship scene, mainly due to Church services on the Friday nights leading up to Easter, but this will change this month, particularly as we are going to introduce a new activity. This is going to be a "Movies-Pizza Night".

Our Fellowship gathering will commence at 7.30pm in GOSP Hall. Everyone, of course, is welcome to attend. At 8.00pm, once the meeting has concluded, we will admit the droves of people into the section of GOSP Hall (cleverly disguised as a movie theatre).

Upon the collection of \$10, each person is entitled to watch and enjoy two great movies. The same admission also entitles everyone to bottomless cups of soft drinks. It doesn't matter how thirsty you are, your cup will always stay full, with various waiters and waitresses performing the task so you don't miss any precious time of the movie. As if that wasn't enough, each person is also entitled to a couple of slices of pizza. Now, we realize that a couple of slices of pizza may not be enough to satisfy the hunger of those of you with more demanding appetites, so more pizza will be available for sale if you want it.

In the meantime, other Fellowship gatherings will be happening on schedule, and plans are well advanced to make the next Trivia Nights even more popular and successful. The timetable below gives an idea of the types of subjects covered in the discussions, along with your own questions and contributions, and the types of activities taking place afterward. We look forward to seeing you.

CAR RALLY REPORT by "Peter Brock"

From the "Le Mans" start, where drivers had to race to their cars, you could tell it wasn't going to be an ordinary car rally. Over fifteen cars, with three or four people in each car, gathered at the Hungry Jack's car park at Garden City. We were given a talk, during which someone asked where our morals were, and 96 questions plus directions. Twenty minutes late, which is good for Greeks, the car rally began. Some drivers showed they had no morals as they maneuvered for position.

The car rally went by the QE2 to Beaudesert Road, out to Indooroopilly, to Mount Cootha and onto The Gap. Peter apologises to a group of ladies who were blocked by another competitor as one of them went to check the date on a foundation stone. Most cars were armed with water pistols, and there were a few water fights along the way. One young lady in a 4-wheel drive will be sorry next time Peter has his water pistol with him.

Once we got to The Gap, we stopped for a rest and a free drink. There was another water-fight there, where a few people were unceremoniously drenched, and a skill cc it for drivers straight from the Brady Bunch (remember it?). The driver had to get as close as he or she could to a styrofoam box without touching it. Only one car scored any points at all, and that was through a cunning plan as much as driving skill. After a few more minutes of scabbing answers off each other, we all took off on the second part of the rally.

We headed out to Mt. Nebo (who were the cheats who 'stole' one of the answers from a pole?) and from there went to Samford, back into Strathpine, and out to the finishing point at Scarborough. During this stretch was the only hiccup in the rally where two of the driving directions were around the wrong way? We won't hold it against you, Steven. Some competitors spotted the error, while many didn't. Most people finished the rally by about 4pm, two hours after the estimated finish time. Despite the late finish, everyone appeared to enjoy the day.

There must have been a few startled residents in the Northern suburbs after the car rally, as cars constantly slowed down in front of houses to count columns and butterflies. Peter knows of one shop owner who probably had a good day's trading as competitors came in to ask him one of the questions. It was here that one gentleman showed how gullible he was as he traded answers with another car outside the shop just mentioned. Be more careful next time, Nick.

The barbecue at the end of the rally allowed the competitors to relax. Thanks to everyone who provided the food, drinks, barbecues, and recreation, and to those people who cooked and cleaned. It's due to their efforts that the afternoon was a pleasant affair. There was even a game of touch football in which most people (and a few trees and bushes) played, to end the day. Not even the intermittent rain during the rally could dampen the spirits and enthusiasm of the people who attended what proved to be a terrific social event. It was encouraging to see so many people turn out for a different way to spend Sunday.

For those of you who wouldn't, or couldn't, be there, the winning team was led by James Prineas, and included Jenny Sclavos and the brother/sister team of Chris and Sophia Hadgis. Well done. They reckon they probably would have beaten Michael Londy's team if they had been there. The challenge is out. It might be worth mentioning the first competitor to arrive at Scarborough finished the rally in last place because of low points on the answer sheet, which proves you don't need a V8 SS Commodore to win a car rally (doesn't it Greg), especially when you can have your mother's Lencen.

Oh yes, there were no traffic infringements reported and no accidents. Who caused a truck to lock up its brakes along Old Samford Road, though? Thanks again to the people who organised the rally, and to everyone who came along. It was great to see some of the married couples also participate. Peter congratulates the young ladies who turned up and were as competitive as the gents in what many people see as 'something only guys do'. Good on you. This is what GOSPYA functions are all about - people getting together to have some fun doing something unusual, and meeting other people.

BASKETBALL: This is the fifth year that GOSPYA has entered a basketball team into the Mens Brisbane Basketball Competition located at Auchenflower Basketball Stadium, Dixon Street, Auchenflower. This year the competition is fielding nine teams and the team has played three games so far. With only one win out of these games there is a lot of hard work to do in the long season ahead.

CRICKET: GOSPYA Cricket has been resurected for the Winter 1992 Warehouse Cricket Competition.

The team played its first match on Sunday, 26 April, 1992 against Beams XI. The game was rain affected for most of the afternoon, but no ruling would be given by the Umpire as to the state of play. In any event the team were forced to chase 380 runs in 50 overs - tough ask in any mans book! GOSPYA made 263 runs after the 50 overs for a loss of 9 wickets and although we missed out by a long way the team management were happy with the performance.

Some good performances in the game include the following:-

Dino Simonidis	Bowling	2/26

Please try to support our sporting teams when you have a chance, these fixture times and team lists are here to show that the teams are more than just a name. Please contact me, as I mentioned above for any further information you may require.

Greekness Of Macedonia

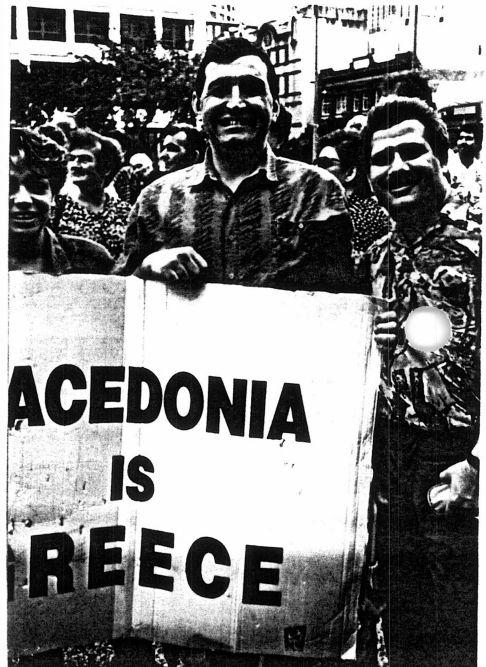

Text: Jenny Sclavos

What started out to be a few crys of protest became a flood of voices in the Southern Australian States. In Sydney, the voices and crys filled the streets as young and old stood tall united by a cause. Fifty thousand Greeks on the 1st of March expressed one common opinion. The protest did not stop there. Fairly soon, Brisbane took action and yet another protest march followed in our very own King George Square.

Sydney's protest march, the "Greekness of Macedonia" was definitely the most significantly organised march of all major cities. Heading the procession were his eminence, Archbishop Stylianos, other dignitaries, followed by groups in National Costume and fifty thousand protesting Greeks. As explained in the BHMA, third of March, "the issue is not about Skopia's entitlement to be independent, but its use of a Greek name with obvious repercussions in terms of territorial claims over Northern Greece." No consideration has been given to the fact that Macedonia, the name, carries 3000-4000 years of Greek History.

The Liberal Party at the march in Sydney recognised the need to be cautious of the name "Macedonia" used by the Skopians. They said that "before recognising the independent state, they would first consider the effects on its neighbours, the effect on peace and harmony and the motives of attempts for territorial claims".

While we shouldn't jump on the bandwagon and start a riot we should be aware of the issue at hand "The Greekness of Macedonia" and at least be aware of the propaganda involved. Depending on how Greeks support this issue universally, could effect the Macedonians of tomorrow.
